

Solutions

TEXAS UTILITY GROUP has the technology, products, and services you need to make savings happen for you—right from the start!

- **START WITH:** no setup costs to you! This is unique to Texas Utility Group in the industry. We want to help you succeed from the beginning.

- **INCREASE YOUR PROFITS.** By allocating or submetering resident utility usage, T.U.G. saves money for property owners by lowering overall operating expenses, reducing leaks and utility waste.

- **INCREASE YOUR VALUE.** By trimming unnecessary costs to property owners, T.U.G. partners with you in making your property more price-competitive in the market, reducing or eliminating the need for rental increases, and passing the savings on to you.

- **INCREASE YOUR CHOICES.** With its wide range of available meter-reading devices, multiple billing-calculation formulas and complete range of remote monitoring and billing services, T.U.G. has the ability-- and the experience-- to customize a billing solution to fit your property.

- **INCREASE YOUR ACCURACY.** By ensuring that those who utilize resources are billed fairly and appropriately, T.U.G. becomes your broker with your residents, freeing you up to accurately assess your property management costs and savings. This allows you to comfortably pass those savings along to your tenants—while you save overall!

- **CHOOSE YOUR METHOD OF COLLECTION.** Our prices are dependent on whether you want to collect in house or if you would like us to do all of it for you. We specialize in our Read Bill and Collect program where we take virtually everything into our hands.
